VISITED ALBANY, WEST POINT

Esturned to New York Last Night and Wil Stay Incre Catal nonday, when He

Goes to city of profiteriy

(By Associated Press.)

NEW York, March a-rance Henry of grussla to-day completed his tout and is once more in New Yora, where he win remain until Monday, when he goes to I misdeiphia. He was absent from the rhinderphia. He was assent from the city for nine days, during, whoch time his apecial train was within the territory of thirteen States and logged a total distance of 4,3.8 ml.es. He was greatly pleased with his trip, and to-night, through his ade, Captain Von Muller, issued a statement expressing his salls-laction at the opportunity which came to him and his gratinication at the cor-

diality with which he was received throughout the country.

His last day on the special train, which carried him to the South, West and East, rivaled in interest any of the others spent by the Prince on the tour, for it began with a visit to Albany, included a run in with a visit to Albany, included a run in bright sunlight down the west shore of the Hudson River and closed with a reception at the United States Military

Academy at West Point.

Albany was reached at 8:30 o'clock, and Mayor Gaus, in behalf of the city, and Governor O'Dell, for the State, met the Prince at Union Station with formal official control of the Company of the Prince at Union Station with formal official control of the Company of th cial greetings.

He was received by the two houses of the Legislature and returned his thanks to their presiding officers for the honor

SAW CADETS PARADE.
West Point was reached at 2 o'clock and the Prince was received with the inilitary honor due his place in the naval Errice of his country. Colonel Mills time to the station with a number of effects of the Academy, and with a troop of cavalry, drove him to the parade ground on the heights above. As the taxalry escort showed at the hour of to avalry escort showed at the brow of the inclined road, Knox Battery fired twenty-one guns. The cadets, formed in six companies, were at once marched on the field, and the Prince, with Colonel Mills and treir respective staffs, inspected them,

Dress parade followed with the Prince as reviewing officer. The cadets, in their landsome gray uniforms, kept their lines parfectly in snow that was shoe deep and their marching won the praise of the Prince and his officers. On the second time around the eadets may be a prince and his officers. ond time around the cadets moved at the double-quick, and once more their alignment was perfect. After the re-tice the cadets were drawn up in close fermation, and the Prince, advancing to the front of the first company, addressed them, complimenting them on their spien-

The parting call of the Prince was at the house of Colonel Mills, whom he repeatedly congratulated and thanked.

FOUR DAYS MORE.

Prince Henry sent for George W. Boyd,
assistant general passenger agent of th Pennsylvania Railroad, who personally directed the railroad arrangements of th tour, and thanked him. He asked Mr. Poyd to be his guest at luncheon on

Torsday next.

The Prince reached New York at 5.5 c clock. Two score of patrolmen and a squad of mounted police were on hand to conduct the Prince to tht Waldorf-Astoria. The Prince had originally intended to return to the Hohenzolern, but the discovery of a case of scarlet fever in the crew changed his mind. He did not fear infection himself, but decided in fear infection himself, but decided in view of the fact that he is to meet a large number of persons during the four remaining days of his star in the United States that it would be better to go to a hotel.

### ABOUT CATARRH CURES

The Reason Why Inhalers and Local Applications are Useless.

For many years catarrh was considered to be a local disease and was treated entirely by local remedies, saives, ointments, powders sprays and inhalers, and nearly all of these gave a temporary relief, but a genuine permanent cure was treated.

It is true the most annoying symptoms, like stoppage of the nose and throat trouble, are purely local, but they are simply symptoms and the real seat of disease is far removed.

Catarrh is a constitutional disease, a

Catarrh is a constitutional disease, a blood disorder, complicated usually with disease of the liver and to suppose that local applications of sprays, powders, inhalers, could ever reach the real cause of the trouble is ridiculous.

The sensible and successful treatment is to remove the catarrhal poison from the system by regulating the liver and purifying the blood, and this can only be done by an internal remedy, which should consist of antiseptics and remedies to act vigorously on the blood and liver.

liver.

The best preparation of this kind which

The best preparation of this kind which fills all the requirements of a safe constitutional treatment is Stuart's Catarrh Tablets, composed of Blood Root, Red Gum and similar wholesome antiseptics, which are absolutely safe to take into the stomach and which act upon the liver stomach and muccus membrane.

Stuart's Catarrh Tablets are large, pleasant tasting lozenges to be slowly dissolved in the mouth, thus reaching the mucous membrane and wind-pipe and finally reaching the stomach.

Dr. Edmondson, is speaking of the new treatment for catarrh, says: "I have accomplished the most satisfactory results in all forms of catarrh of the head, throat, brouchial tubes, as well as catarrh of the stemach and liver by using nothing else but Stuart's Catarrh Tablets, I long since threw aside sprays and inhalers as being inconvenient and at the best mere temporary make-shifts.

Stuart's Catarrh Tablets act immediately upon the liver and blood and clear the whole system of catarrhal poison. They are pleasant and very convenient to use, and they are not only the latest, but I believe them to be the best and certainly the safest treatment for any form of catarrh."

All druggists sell Stuart's Catarrh Tablets at 50 cents for full-sized packars.

## PERIODS Miss Gertrude Williams, Chaplain of

Detroit, and Two Other Women, Tell How Lydia E. Pinkham's Vegetable Compound

Cures Periodic Suffering.

Woman's Christian Association of

While no woman is entirely free from periodical suffering, it does not seem to have been the plan of nature that woman should suffer so severely. Lydia E. Pinkham's Vegetable Compound is the most thorough female regulator known to medical science. It relieves the condition which produces so much discomfort and robs menstruation of its terrors.

MISS GERTRUDE WILLIAMS.

"DEAR MRS. PINKHAM:—and dear friend, for such your medicine has proved to me; 'a friend in need is a friend indeed.' For several years I suffered from Menorrhagia, or profuse and painful menstruation, until my vitality was well nigh gone, and as a last resort I took six bottles of Lydia E. Pinkham's Vegetable Compound and was restored to health, to the surprise of my friends, and I now sing its praises. Gratefully yours, Miss Gertrude Williams, 75 Columbia St., West Detroit, Mich."

Two More Sufferers Relieved.

"DEAR MRS. PINEHAM: -I had | been a sufferer of suppression of the menses from girlhood, always appearing after time and causing great pain compelling me to keep my bed. I tried a number of doctors but without relief. Having read so many testi-monies about the good Lydia E. Pinkham's Vegetable Com-pound had done, I decided to try it. After using only one bottle I felt much better. I continued its use and the health and strength that I have to-day I feel I owe to you."—Mrs. Chas. B. Gill, 1012 Winter St., Phil-

"DEAR MRS. PINKHAM: -I write to let you know how thankful I feel toward you and your remedies. Words cannot express the benefit I have received from Lydia E. Pinkham's Vegetable Compound. I had been troubled with my periods being very irregular and painful, also suffered with my back and kidneys, but now I feel like a new woman. I cheerfully recommend your remedies to any one suffering as I was."— Mrs. James Cox, 528 Washington St.,

Women who are troubled with painful or irregular menstruation, backache, bleating (or flatulence), leucorrhosa, falling, inflammation or ulceration of the uterus, ovarian troubles, that "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, Lynn, Mass, for further free advice. Thousands have been cured by so doing.

BEWARD. — We have deposited with the National City Bank of Lynn, 95000 which will be paid to any person who can find that the above testimonial letters are not genuine, or were published before obtaining the writer's special par Lydia E. Pinkham Medicine Co., Lynn, Mass.

### SENATOR BACON ASSAILED BILL

Measure to Protect President's Life an Extension of Treason.

**WOULD MUZZLE THE PRESS** 

cergia Senator Made Able Constitutional Argument, and Declared He Would Never Vote tor the Bill Even if the Was the Only One Who Orposed it.

WASHINGTON, D. C., March 7.—On account of the indisposition of Mr. Vest, of Missouri, and Mr. Mailory, of Florida, who expected to speak to-day upon the pending ship subsidy bill, that measure was not considered by the Senate to-day. After the diplomatic and consular at propriation bill had been passed early in the session, the Senate took up measure for the protection of the President of

of the United States.

Mr. Bacon, of Georgia, offered an mendment to the distomatic bill providing that the student interpreters eming that the student interpreters can be an included in the legations and the consulates in China should be selected in a non-partisan manner, and that they should agree to remain in the service for ten years. The amendment was agreed to.

Continuing his speech begun yesterday on the bill for protection of the application. M. Sacon contended that the resident, Mr. Bacon contended that the mactment of the bill in the present form would be an extension of treason as defined by the authorities. He quoted

various writers on law and the Con-stitution in support of his argument. Merely because the crime named in the Marely because the crime named in the pending bill was not designated as treasor did not change its character. It practically was made treason by the penalty provided, and the means resorted to, to apply the penalty to the criminal. He indicated his belief that such a provision was unconstitutional, maintaining that treason had been defined in the Constitutional providers long and careful descriptions. stitution only after long and careful de-bate, during which every possible con-

tingency was considered.

He argued that the Constitution intended that each man shall be equal before the law and the remedy for an attack on the President or the killing f the President should be the same as if the crime were committed against an know of to guard against these lise is es individual.

WOULD MUZZLE PRESS. Mr. Bacon maintained that the conten-tion of those who supported the measure was in effect that there was no differenof catarrh."

All druggists sell Stuart's Catarrh Tablets at 50 cents for full-sized package.

A little book on cause and cure of Catarrh malled free by addressing the F.

Stuart Co., Marghall, Mich.

Mr. Bacon denied the a stitutionality of any law which shall invade our institutions, which shall upturn the recognized procedures of one hundred years and which shall put it in the power of partisans either on the bench or elsewhere "to oppress men on account of their political opinion." The bill, if enacted, he said, would muzzle the press and make any editor afraid to express an opinion as to the President or other offi-cial for fear that thereafter if any of these officials should be killed he might be tried for murder.

He would not, he said, vote for the bill

even if he were the only man in the Sen-ate and the House of Representatives op-posed to it. The only way to protect the President and Vice-President and heads of departments, he declared, was to prevent persons who may have designs on their lives from having the opportunity.

After an executive session, the Senate adjourned until Monday.

In the House,

WASHINGTON, D. C., March 7.—The bill to classify the rural free de ivery service and to place the carriers under the contract system held the floor in the House to-day. By an arran ement agreed to by both sides, genera' debate will be concluded under the five-minute rule Monday. Among those who spoke for the bill was Mr. Claude Kitchen, of North

#### WENT OVER THE LINE.

President Christy, of Construction Company, Looks Over Petersburg Road.

# PAIN. CITY OFFICIALS.

Messrs. Puller, Thompson and Bolling Are Heard.

WATER SUPPLY DISCUSSED

Fire Loss Committee of the Council Continues its lovestigations-Recommendations of the Different Department Chiefs.

The Council Committee on Fire Losses met last night and heard Chief Pulier, of the Fire Department; Superintendent Thompson, of the Fire Ala m Department, and Superintendent Bolling, of the Water

bepartment.

No action was taken by the committee and it adjourned to meet at the call of the chairman. Mr. Bolling did not complete his address to the committee and will be heard again when next the committee and the committee and the committee and some committee and the committee

will be heard again when next the committee meets.

Chief Puller was closely questioned by the committee, especially by Mr. Gordon, on the alleged scarcity of water. Mr. Thompson read a typewritten statement or report and answered a number of questions. Mr. Bolling delivered an address upon the threefold system of distribution of Richmond, upon water pressure, size and location of mains and fire plurs and other kindred topics.

plugs and other kindred topics.

Mr. Gordon's questions to Chief Puller opened with inquiries concerning alleged lack of water at recent fires. At the Jef-ferson Captain Puller said the streams were "bad" from lack of fire hydrants and length of hose. Mr. Gordon's com-ment was that poor streams did not nec-essarily mean a lack of water supply. "Was there a lack of water at the Jeffer-

son fire?" inquired Mr. Gordon again,
"Yes, there was at some of the plugs,"
replied Mr. Puller.
The next morning the Water Depart-

The next morning the Water Department employes had "greased the stopcocks," they said, at Jefferson and Main, and there had resulted a much better supply of water.

SUPPLY OF WATER.

At the Meyer store fire, Mr. Puller replied that "there was right fair water; one stream was bad." He had heard no complaints from any of the engine companies

panies.
At the Wright factory fire the streams, the Chief said, were "poor." An engine had had to move to open water from Twenty-third and Cary, and the same plug had proved of no value at the Cameron fire.
At the Habliston fire the engine at

Seventh and Main had a "poor" stream, the Chief said. At the Gates fire two engines on Main

Street had "poor water."
At the Cordes & Mosby fire the engines all had good water.
At the Younger fire all had all the water they wanted with one exception.
The Chief thought that in many in-

The Chief thought that in many instances the plug connections were choked with mud. They should have six-inch rather than three and four-inch connections. Especially, as with James River water, they were liable to become clogged. Leaves and mud and catfish were pumped into the engines from the plugs. At the Cordes & Mosby fire an engine had become choked with leaves. The Chief had an eight-inch catfish on the mantel in his office taken from one of the engines after the Cameron fire. Oftentimes there is not a two-inch water way through a four-inch pipe.

Mr. Puller's recommendations were larger mains, more hydrants, especially in the business sections of the city, and a building inspector.

a building inspector.

MR. THOMPSON'S REPORT.

Superintendent Thompson's report showed that since 1888 he had been recommending wires underground. This recommendation was urgently repeated. He said: 'During a period of fourteen years we have had 3.218 alarms of fire. Of this number only corty-three, or about 11-3 per cent, have been of elec-trical origin."

Mr. Thompson offers the following re commendations:
"First. All overhead wires, both high

and low potential, should be placed under-ground, because they are dangerous to property and a general nuisance to every-bedy.

"Second. The city should give addi-tional help to the Electrical Department in order to properly inspect electrical in-stallation, both old and new, as the Fire Department is often called to fires

when not necessary.

"Third. The fire alarm and police wires should be placed underground, so that they would be free from interferences caused by storms, falling trees, broken wires, etc., because you would then be reasonably certain of calling the depart-ment at all times, certainly of reaching the engine houses in the center of the

city." MR. BOLLING HEARD. Superintendent Bolling was partially

Superintendent Bolling was partially heard by the committee. "What is the purpose of the subdivision of the city water distribution into sections?" asked Mr. Bolling of Mr. Puller. "I do not know." replied Mr. Puller. "Do you know the pressure at Jefferson and Main?" asked Mr. Bolling. "I do not," said Mr. Puller. "It's in that book," commented Mr. Polling, pointing to his last annual report.

Then followed an interesting discussion of the alleged "greasing" of the water department employes. Mr. Boiling clear-ly and forcefully explained the scientific topographical principles of the system of dividing the city into three sections, high, intermediate and low, with a sepa-rate system of mains for the supply of cach. The system of reservoirs and mains therefrom was clearly described and the supply of water available for all sections of the city stated. Oftentimes the pipes were clogged with mud, and the importance of flushing out the fire by hydrants was emphasized.

Without the assistance of an engine Mr. Bolling was sure the pressure at the Main-Street depot would throw a stream through one section of hose to the clock in the tower. ach. The system of reservoirs and main

In the tower.

The system was not perfect. Changes would be made, but many of the recommendations were unnecessary and beyond our means.

### LEE CAMP MEETING,

Resolutions of Respect to Captain Ferrite Adopted.

Adopted.

Lee Camp held their regular meeting last night with Lieutenant-Commander John Bolling in the chair.

The Sons of Veterans and Cap'nin J. H. O'Bannon presented to the camp valuable historical books, for which the thanks of the camp were returned.

Mrs. N. V. Randolph, treasurer of the Ladies' Auxiliary Corps of the camp, and Mrs. B. A. Blenner, senetary of the auxiliary, made their annual reports of the funds distributed by them, which was very gratifying and received the commendation and thanks of the camp.

The committee appointed to prepare resolutions on the death of Captain James T. Ferriter submitted their report, which was adopted. The resolutions pay a high tribute to this fine soldier and good man.
